

ABB string inverters

PVI-3.0/3.6/3.8/4.2-TL-OUTD

3.0kW to 4.2kW

This family of single-phase string inverters complements the typical number of rooftop solar panels enabling homeowners to get the most efficient energy harvesting for the size of the property.

This inverter offers a dual input section that processes two strings with independent Multiple Power Point Tracking (MPPT).

This is especially useful for rooftop installations with two different orientations from two sub-arrays oriented in different directions, or unbalanced strings (for example: East and West).

The dual-input sections with independent MPPT enable a more optimal energy harvesting condition.

The high-speed MPPT offers real-time power tracking and improved energy harvesting.

The flat efficiency curve ensures high-efficiency at all output levels allowing a consistent and stable performance across the entire input voltage and output power range.

The transformerless operation gives the highest efficiency of up to 97.0 percent.

The wide input voltage range makes the inverter suitable to low-power installations with reduced string size.

This rugged, outdoor inverter has been designed to be a completely sealed unit, to withstand the harshest environmental conditions.

Highlights

- Single-phase and three-phase output grid connection
- Wide input-voltage range for increased stringing flexibility and energy harvesting
- The high-speed and precise MPPT algorithm offers real-time power tracking and improved energy harvesting
- Outdoor NEMA 4X rated enclosure for unrestricted use under any environmental conditions
- Integrated DC disconnect switch in compliance with international Standards (-S Version)

Additional highlights

- RS-485 communication interface (for connection to laptop or data logger)
- Available with the optional VSN300 Wifi Logger Card for easy and affordable wireless monitoring
- Compliant with NEC 690.12 when used with ABB's Rapid Shutdown device
- Comes standard with DC Arc Fault Circuit Interruptor (AFCI) to comply with NEC 690.11
